Dr Sir:

I have in my possession a ten dollar gold piece, (one eagle) of the date 1799. I do not think it has ever been in circulation for it is as perfect in every respect as the day it was coined. I thought it possible that you han not a perfect specimen of this date in your collection at the mint. If such is the case and you desire to procure one, I think we could make satisfactory terms.

Very Respectfully
E. B. Weirick

I will forward the coin for examination if you desire it.
